# SAT Suite of Assessments

SAT<sup>®</sup>

PSAT/NMSQT<sup>®</sup>

PSAT<sup>™</sup> 10

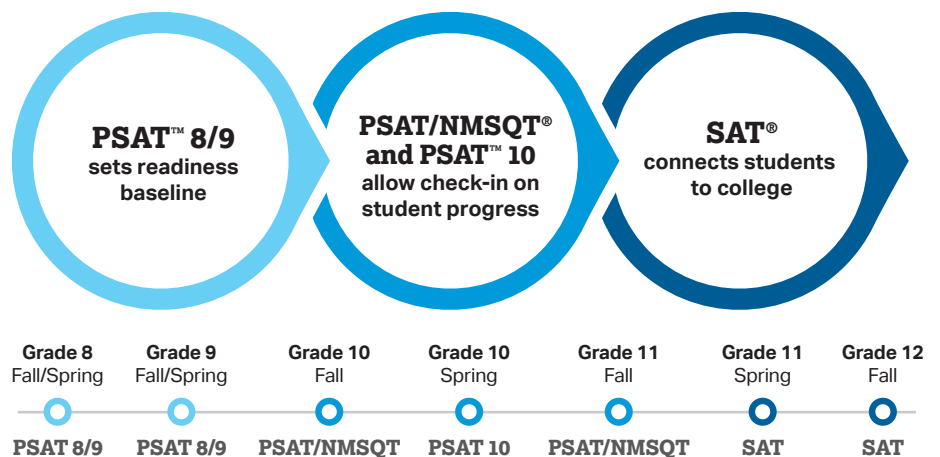

PSAT<sup>™</sup> 8/9

Clearing a path to college and career readiness with free practice, scholarship opportunities, fee waivers, and planning tools.

# Clear a Path for Your Students

The SAT® Suite of Assessments is an integrated system of tests that measure what students are learning in class and what they need to succeed in college and beyond.

## Educator Benefits: Improved Student Outcomes

The SAT Suite is a pathway of assessments that offers unparalleled benefits to states, districts, and schools by providing continuous, consistent feedback that identifies where students excel and where they could use some help.

The SAT Suite of Assessments:

- **Delivers actionable data:** Uses a common score scale to provide clear benchmarks to measure progress year over year. Our online score reporting portal lets educators easily view, sort, and analyze score data from every test in the suite to readily use the data to inform learning and instruction.
- **Opens up AP® opportunities:** Identifies students likely to succeed in AP. When students do well in AP courses, they're more likely to succeed in college. And students with qualifying AP Exam scores can save money through credit-granting and placement policies.
- **Promotes equity:** Every student should be able to apply to college. Income-eligible 11th- and 12th-grade students receive waivers, unlimited SAT score sends, and college application fee waivers so they can take the SAT and apply to college—all for free.
- **Provides flexibility:** Lets schools and districts administer the SAT, and any of the assessments, during the school day—making it more comfortable, convenient, and accessible for all students. The entire suite is ordered online and in one place, with multiple test date options for each assessment.

### Research-based assessments:

College Board assessments are based on what research and evidence have shown to be **essential for college readiness and success**. A detailed overview of the research and guiding principles behind the assessments is available at [collegeboard.org/suite-research](https://collegeboard.org/suite-research).

“By accurately assessing students’ strengths and areas for improvement, and then providing effective and targeted support based upon that assessment, **we’re reaching more students and seeing more of them prepare for success in college.**”

—Christopher J. Steinhauser, Superintendent (Retired), Long Beach Unified School District

## Student Benefits: Set Up for Success

The SAT Suite of Assessments does more than measure and support college and career readiness. It reinforces what students are learning in their classrooms and connects them to valuable opportunities and resources.

- **Increases access to scholarships:** Students who take the PSAT/NMSQT® in 11th grade may meet the requirements to enter the **National Merit® Scholarship Program**, an academic competition for recognition and scholarships.

The SAT, PSAT/NMSQT®, and PSAT 10 connect students to another \$300 million in college scholarships. Additionally, the **College Board Opportunity Scholarships** program provides a simple path to college with the chance for students to earn scholarships for each step they take. Half of the scholarships—more than \$2 million each year—are set aside for students whose families earn less than \$60,000 per year.

- **Provides college planning tools:** **Student Search Service®** connects students with over 1,900 colleges and universities. Students can opt in to hear directly from colleges and scholarships looking for students like them. **BigFuture™**, another college planning resource, offers support to students from their first thoughts about college to their first day on campus.
- **Offers career planning resources:** Students who take any of the assessments get access to **Career Finder™**, an engaging online experience that helps students make informed decisions about their future major and career by building upon their passions and interests.

## SAT Practice on Khan Academy

Official SAT Practice on Khan Academy® is FREE for all students and the best way to prepare for the SAT. When students link their College Board and Khan Academy accounts, they get a personalized study plan based on their results on tests like the SAT, PSAT/NMSQT, or PSAT 10 so they can focus on the skills they need to work on most. Students also get access to:

Video lessons that explain problems step by step

Thousands of practice questions with instant feedback

Strategies for studying and test taking

Full-length practice tests

Learn more at [satpractice.org/k12](https://satpractice.org/k12).

“The SAT Suite of Assessments has given our students access to the resources they need to help them stand out on their college applications. In three years, we saw a 300% increase in college scholarships and financial aid.”

—Jennifer Ertel,  
Director, Innovation  
& Postsecondary  
Programming, Houston  
Independent  
School District

### Coaching Tools

Educators can use the coaching tools in Official SAT Practice to view SAT practice recommendations and progress for entire classes and individual students, making it easier than ever to get their students ready for the SAT.

# About College Board

College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, College Board was created to expand access to higher education. Today, the membership association is made up of over 6,000 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success—including the SAT<sup>®</sup> and the Advanced Placement<sup>®</sup> Program. The organization also serves the education community through research and advocacy on behalf of students, educators, and schools.
