An Introduction to the Human-Powered Knox Experience!

THE FIRST THREE THINGS TO KNOW ABOUT KNOX COLLEGE

1. WE'RE A SINGULAR INTELLECTUAL COMMUNITY.

Our students come from all over the world, from radically different backgrounds. On a handsome campus in western Illinois, we come together as equals. Our diversity makes us smarter, more effective, more engaged in the world.

2. WE'RE AN EXPERIENCE.

We offer more than \$350,000 to support advanced research, creative projects, and independent study by our students. We offer access to hundreds of internships, dozens of off-campus (sometimes way off-campus) programs, and an award-winning service program. Every student receives a \$2,000 Power of Experience Grant to support exactly that kind of work.

3. WE GET RESULTS.

A Knox education allows you to do great things. Our graduates run Fortune 500 companies and grassroots nonprofits, conduct major research at sites around the world, and found startups and music festivals. A Knox degree is proof that you know how to make positive, productive change happen. You know how to make the world smarter, starting here, starting now.

A photograph of a classroom or computer lab. In the foreground, three students are focused on a computer screen. A young man with curly hair and glasses, wearing a green t-shirt, is pointing at the screen. Next to him, a young woman with long brown hair and glasses, wearing a dark blue top, looks on. To her right, another young woman with long dark hair and glasses, wearing a black and white patterned top, rests her chin on her hands. In the background, a man in a dark sweater is standing and gesturing, possibly a professor or teaching assistant, while another student in an orange shirt is partially visible on the right. The scene is brightly lit, suggesting a modern educational environment.
