## A BRIEF LOOK AT AMIE'S SESSIONS

---

### **Behavior Interventions That Work**

Do you have a plan for what you will do when a student doesn't comply with your request the first time? Second time? How about the third time? Do you go home tired and exhausted from frustration? This presentation will guide you in developing a thorough, preventative plan for handling issues from low level distractions to serious/chronic behaviors. This is a practical, hands-on presentation filled with concrete steps you can use the next day to help students and yourself.

---

### **Motivating Challenging Students**

Like many of you, I have had classes, and often students, which led me to think, "How will I make it this year?" I have spent my career as a classroom teacher searching for and learning which strategies work with students. My only criteria: positive and practical! This session is designed for teachers who believe that every student has a gift to offer the world. We have to find ways to help them realize it.

### **Social/Emotional Literacy in the Classroom**

Do your teachers have strategies for building respectful learning communities in their classrooms? How can they help students feel the 3 C's - Connected, Capable, and Contributing without giving up too much instructional time? In this session, participants will be introduced to two methods that are proven to build positive classroom communities - Responsive Classroom and Tribes.

---

### **Creating Trauma-Sensitive Classrooms**

In today's classrooms, more and more students are living in or recovering from trauma and chronic stress. Many educators feel overwhelmed and unprepared to deal with the behaviors that are a result of these situations children are facing. This session will provide participants with concrete strategies that can be implemented in classrooms to support students by building relationships, trust, and teaching coping strategies.

### Your Happy Heart

*How Helping Others Helps You, Too*

Amie Dean

When fifth grader Javon meets kindergartner Richard for the first time, Richard won't talk to Javon or even look at him. Javon realizes that Richard reminds him a lot of himself at that age. Javon learns that helping someone find their happiness makes your own heart happy, too.

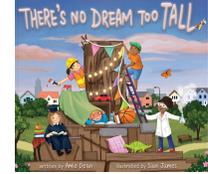

### There's No Dream Too Tall

Amie Dean

Instead of adults advising children as to what they could—or should—be when they grow up, *There's No Dream Too Tall* offers a different approach. Kids are given the freedom to decide for themselves.

By showing kids that their different strengths can help them become who they want to be, we give them the power and permission to dream.

### 15-Minute Focus - Behavior Interventions: Strategies for Educators, Counselors, and Parents

Amie Dean

In this book, Dean gives educators, counselors, and parents knowledge, strategies, and resources to teach children and teens how to communicate and make decisions to get their needs met in positive ways through behavior instruction and coaching.
