

A FLIGHT PLAN FOR SUCCESS

LIFT Academy, owned and operated by Republic Airways, one of the largest regional airlines in the U.S., offers its flight students an affordable, accelerated flight training opportunity in our state-of-the-art Diamond Aircraft and simulators, learning using our in-house proprietary training curriculum and expediency of check rides because of our authorized examining authority. Our students who successfully complete the program and complete time building as a Certificated Flight Instructor (CFI) or First Officer at Cape Air have a direct flow to a position as a pilot at Republic Airways for a five-year commitment.

Total cost of flight training at LIFT Academy is \$90,000, but because of a \$15,000 subsidy from Republic Airways, your flight training will cost you a total of \$75,000, including instruction, fuel and checkride fees (first attempt for each rating/certificate), iPad and more! As a future LIFT pilot, it's important to know that this is a rigorous program, but the time and dedication is worth the rewarding career. Expect to train 5-7 days a week, both in-plane and studying at home.

In addition to outstanding benefits, including flight privileges with our partners American, Delta and United, Republic pilots earn the following:

AVERAGE LIFT TRAINING TIMELINE

CERTIFICATED FLIGHT INSTRUCTOR AT LIFT

(EARN WHILE YOU BUILD FLIGHT HOURS)

\$20/HR

REPUBLIC FIRST OFFICER

YEAR 1: \$46.36/HR
YEAR 2: \$52.02/HR

UPGRADE TO REPUBLIC CAPTAIN

YEAR 2: \$92.98/HR
YEAR 3: \$95.06/HR
YEAR 4: \$97.19/HR
YEAR 5: \$99.40/HR
