

HELLO  
FUTURE.  
GOODBYE  
DEBT.

**UFP**  
Business School

## WHO IS UFP?

Headquartered in Grand Rapids, Michigan, UFP Industries, Inc. was founded in 1955 as a supplier of lumber to the manufactured housing industry. Today UFP Industries is a multibillion-dollar, FORTUNE 500 company with more than 200 facilities worldwide that serve three markets: construction, industrial and retail.

## WHAT IS UFP BUSINESS SCHOOL?

The UFP Business School provides the education you need to advance your career without incurring any debt. We offer a curriculum that combines innovative education from instructors that do what they teach, with paid hands-on work opportunities as you learn. We are here to help you succeed.

It is a full-scholarship, 2-year business school that prepares its graduates for opportunities in operations, safety, sales, production, logistics, design and purchasing. This combination provides a solid foundation of your skill set and is the ultimate head start for your career path.

# STUDENT TESTIMONIALS

## Melody Spain E-Commerce Warehouse Manager

"I attended a 'traditional' college, and it was very rare that an instructor would be available to help you when you needed them. One thing that stood out the most to me was that the business school's instructors are always available to help. That's impressive knowing they work as hard, if not harder, than I do for the company daily. When I graduate, I plan to continue to grow with my family here at UFP. I would love to learn every aspect of this company, help it continue to thrive and grow through innovation, and become a top-level executive by following the examples of the executive team I have leading me today!"

## Valentina Morales Purchasing Analyst

"When I was in the UFP Business School, I saw and felt the synergy of the group. UFP's culture can be seen in every class, fellow student, and instructor. The business school offered me a network of contacts that gives me knowledge and motivation in my day-to-day life. I see constant training for myself and a long career here at UFP. I want to specialize in UFP-EDGE and improve my position in the company."

## Josh Garcia Special Projects Coordinator

"I was at a crossroads with my higher education. I had the choice of pouring more money into a community college that kept changing the requirements for graduation or the option of building a career and receiving a tuition-free education simultaneously. The UFP Business School has provided me with the fundamentals to become a leader. It has also opened opportunities for me to exercise those skills and grow as an employee."

**Paco Ortiz** Hourly Maintenance Supervisor

“Since I started at the UFP Business School, my goal was to be the maintenance manager. I had the opportunity to apply last year and on November 30, 2021, I became the maintenance manager. UFP Industries invests in you. They take care of you and give you opportunities to move up. The company has kept me working all year long and has given me stability and possibilities to work outside of my comfort zone.”

**Zeb Oatis** UFP Business School Intern

“UFP Business School is providing me with a debt-free degree, real-world job experience at a multi-billion dollar holding company, and the opportunity to grow and learn in a professional environment. After I graduate from the degree program, I look forward to a fulltime position at UFP. There are many areas that are open to the business school graduates, and I especially look forward to exploring the marketing department.”

# INSTRUCTOR TESTIMONIALS

**Samantha Kamil**  
Financial Accounting, Statistics and Managerial Finance Instructor

“My goal is twofold: One, to bring value to the company by increasing the knowledge base and skill level of its employees; two, to bring value to the student on a personal level by helping them to gain confidence in their abilities and grow as an intellectual. No matter what a student goes on to do in their professional lives, they will never regret or lose the personal achievement they’ve attained through their studies. It’s so satisfying to see the culmination of the students’ hard work at graduation, and the smiles full of pride!”

**Joe Grey** Business Writing Instructor

“My hope as an instructor is to make the basics of good writing easy for everyone to understand and to provide tips and resources they can use for the rest of their lives. A key moment that stood out to me was when one of my students took our class lessons and shared them with his team members so they could improve their writing. It’s nice to see someone have a passion about helping others.”

**Joe Celello** Risk Management and Business Law Instructor

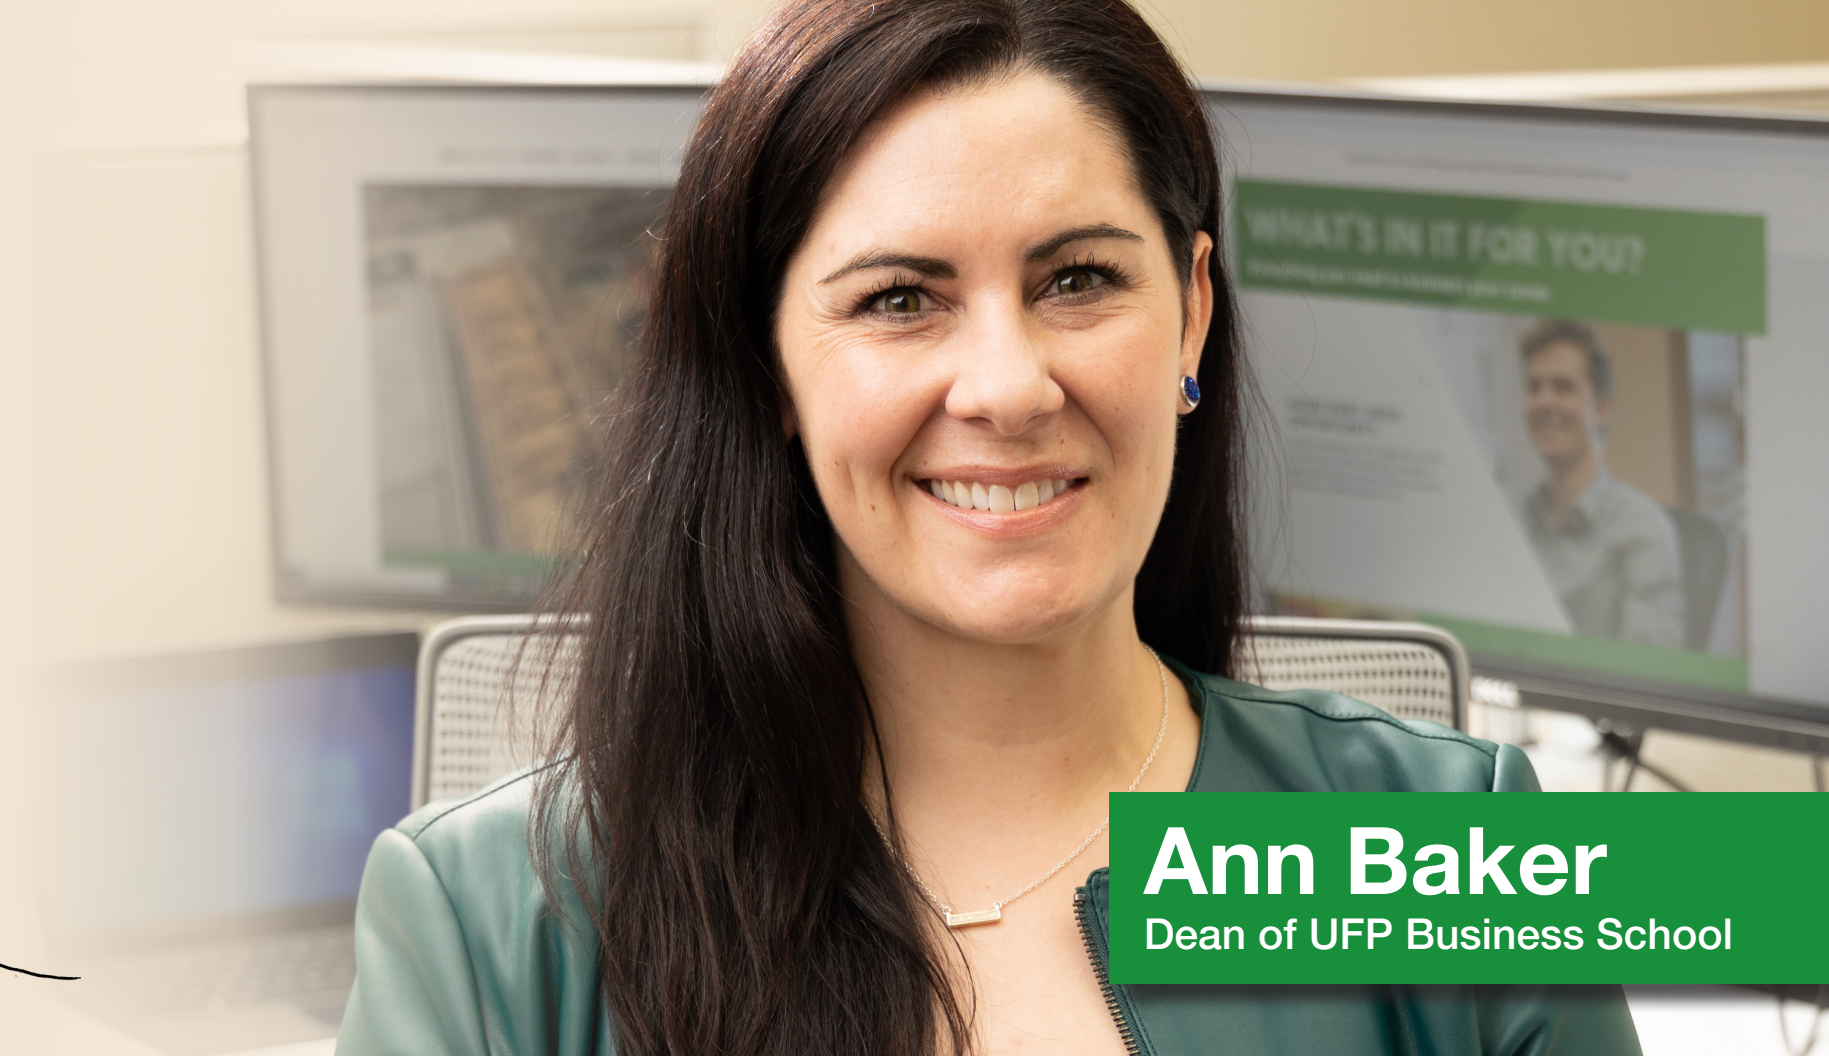

“Seeing graduates of the program excel through the ranks in the field and at our corporate headquarters has stood out to me. It proves not only the value of the education they are receiving, but more importantly the character of these individuals. I am happy to call many of my former students colleagues now. Hopefully, my impact as an instructor is providing my students with valuable knowledge and tools they can use to benefit themselves and the company in their careers.”

# FROM THE DESK OF THE DEAN

“UFP Business School is an opportunity to build your future without going into debt. It’s innovation in education because you are learning directly from those that do what they teach and show you how to use it in the business world. We can’t wait to have you start your journey with us!”
