

LEAVE YOUR MARK.

The Michigan Regional Council of Carpenters and Millwrights is committed to providing extensive training in state-of-the-art techniques, education and equipment. Our brotherhood of skilled carpenters and millwrights takes real pride in our craft. So when you graduate, you are ready to take on any challenge.

Earn while you learn with:

- ✂ On-the-job training in the latest technology and equipment, and classroom instruction.
- ✂ Scheduled, graduated wage increases.
- ✂ A real career and professional track.
- ✂ Certification by the U.S. Department of Labor – something only union apprentices get at the end of their training.

Carpenters: Building the Future

While you might expect to find carpenters on traditional construction sites; building homes and industrial structures, you may be surprised to know that skilled carpenters are employed in many other fields, too. Carpenters even contribute to infrastructure construction, building our roads, bridges, and tunnels.

Floor Installers: Laying the Groundwork

Floor coverings serve an important basic function in buildings, but their decorative qualities also contribute to the building's appeal. From simple carpet installation to complicated inlay or engineered wood floors, floor installers enhance the beauty and worth of our homes, offices, and municipal buildings.

APPRENTICESHIP

LEARN WHAT IT TAKES TO LEAVE YOUR MARK.

Masters of Precision

Millwrights are members of an elite construction industry subspecialty that works primarily in metal and precision machinery. Millwrights install conveyor systems, giant turbines, and electrical generators. They install and maintain factory machinery, and perform much of the precision installation and maintenance work in nuclear power stations.

For more information about the millwright apprenticeship text **FUTURE** to (855) 424-2562 or online at www.buildmifuture.com

"You walk out of college with debt and no promise of a job. You walk out of the apprenticeship school with a skilled trade, no debt and the ability to work anywhere in the country. **The experience is priceless.** The carpentry apprenticeship school has paid thousands of dividends. You can't break the bond of brotherhood in this union."

JOHN SALVAS, recently graduated apprentice, Michigan Regional Council of Carpenters and Millwrights

A professional career with superior training and a secure future

Get it with the Michigan Regional Council of Carpenters and Millwrights!

Carpenters and millwrights are building Michigan's future – and you can be part of our union by becoming an apprentice today. The apprenticeship school is a paid, four year program consisting of practical, on-the-job training and state-of-the-art classroom experience.

As a union apprentice you will:

- ✂ Develop the skills and knowledge to start a career today.
- ✂ Be paid good wages on an ascending scale.
- ✂ Earn a pension, annuity, and insurance benefits.
- ✂ Continually build upon your skills even after graduation.
- ✂ Earn college credits at participating community colleges.

BUILD SOMETHING GREAT.

**No College Degree,
No Problem.**

Our union welcomes anyone with a High School Diploma or GED, is willing to work hard and strives to continually improve themselves. MRCC's training, apprenticeship and jobs programs are statewide.

LEAVE YOUR MARK.

If you've never picked up a hammer before or if you've been building things since you were a little kid, our four-year apprenticeship program will help you develop the skills you need to succeed, find higher paying jobs, and be the best in the industry. The MRCC apprentice program emphasizes safety, ensuring our carpenters and millwrights keep job sites safe and produce work that is second to none.
