CFNC saves you time and supports you as you support your students!

“ The CFNC website has been crucial for our career development and college application initiatives at Southside High School. The resources it provides are in-depth, user friendly, and specifically geared toward an audience who is walking through the college application process for the first time. This year we've utilized the CFNC website for Countdown to College, College Application Week, and classroom lessons with 9th, 10th, and 11th graders. ”
