A BRIEF LOOK AT LOREN'S WORKSHOP / BREAKOUT SESSIONS

Groups, Groups, Groups!!! The Key to Comprehensive School Counseling!

Counseling Groups are the most effective way of providing our services to the maximum number of students every week, yet there are many counselors, especially at the high school level, who miss the opportunity to implement them regularly (or at all). What prevents you from providing groups? Time? Preparation? Fear? Whatever has been your barrier, let's break through that today! Join Dr. Dittmar to learn how you can maximize your effectiveness!

A Song for You: The Crucial Roles of Counselors in School Mental Health

The impact of the pandemic is ongoing and our students (and families) need more support for their mental health than ever before. Attendees who are willing to dig deep, and possibly get a bit emotional, are invited to join this session to engage in a valuable discussion about the school counselor's leading role in these preventative efforts, by exploring current research and best practices.

Lean Into The Discomfort: Seeing Students Through a Trauma-Informed Lens

School Mental Health has become a high priority in society, and the opportunity for School Counselors to lead the way has emerged! Our students need increasing support from a lens that is deeply attuned to the emotional challenges they face. This Trauma-Informed lens can be taught, strengthened, and shared. Join this session to learn how you can train all staff to go beyond the surface and truly see each child from a magnified empathic lens.

Your Mental Health Matters: Modeling What You Teach!

As School Counselors, we are often pulled in a million directions at once, and it's so easy to get into the habit of giving more than humanly possible. If you're exhausted, overwhelmed, and need to develop better balance, join Dr. Dittmar in this interactive session about modeling the things we teach our students: boundaries, self-care, and optimism. And discover how to sustain this throughout the years of your career.
