IU High School Online

*Indiana University's
online high school brings
a flexible, rigorous
learning opportunity
to students around the
country and the world.*

*Become an IU High School
Online school partner
today.*

Dear Educator,

Thanks for taking a few minutes to learn more about IU High School Online. We are a flexible, online education program that serves the academic needs of high school students around the world. We harness the expertise of faculty at Indiana University to optimize research-based teaching practices and improve student learning outcomes.

IU High School Online is fully accredited by Cognia and supports brick and mortar schools by building school-to-school partnerships and offering courses to supplement your students' education.

I look forward to working with you.

DR. REBECCA ITOW

Our Guiding Principles

These ideas shape our approach to the innovation and implementation of online learning in secondary education.

- 1. KNOWLEDGE SHAPES AND IS SHAPED BY PARTICIPATION**
- 2. BUILD STRATEGIES FOR INTERACTING IN A NETWORKED WORLD**
- 3. EXPERTISE IS UNLOCKED**
- 4. EXPAND ACCESS TO EDUCATION BEYOND TIME AND SPACE BORDERS**

Our Approach

We must build learning environments that support students living in a networked society.

The online world allows individuals to co-construct knowledge and co-create meaning. It is our responsibility to teach students the ever-evolving skills required to consciously and critically navigate these spaces.

We equip students with the tools to participate in the evolution of knowledge, to responsibly and critically interact with others in a digital environment, and to engage more deeply with their own learning in the process.

Our courses facilitate productive disciplinary engagement with content and resources. Students learn how to draw on the expertise of authors, creators, their own experience, and more, rather than rely on the expertise of a single teacher.

Course Design Academy

To support Indiana educators during the COVID-19 pandemic, IU High School Online partnered with the Indiana Department of Education to create The Course Design Academy.

This initiative brought together state educators who worked collaboratively to build accessible, online versions of the 80 most enrolled courses in middle and high school for Indiana teachers to use in their classrooms.

Become a School Partner

- 1. SCHEDULE A MEETING TO TELL US MORE ABOUT YOUR SCHOOL, YOUR STUDENTS, AND YOUR SCHOOL'S NEEDS. THEN, WE CAN RECOMMEND COURSES.**
- 2. HELP YOUR STUDENT REGISTER FOR THEIR CHOSEN IU HIGH SCHOOL ONLINE COURSE.**
- 3. ACT AS A LIAISON BETWEEN YOUR STUDENT AND OUR TEAM TO NAVIGATE LOGISTICS.**
- 4. CHECK-IN REGULARLY WITH YOUR STUDENT ON THEIR PROGRESS IN THE COURSE.**

School Partner

Scholarship Program

For every 10 supplemental course enrollments from your school, IU High School will provide you with one free enrollment for a student from your school, to be awarded however you see fit.
