Empowering Teens. Restoring Families.®

Making the Difference in a Student's Life

Anxiety, depression, and suicide are on the rise among adolescents. But entering treatment doesn't have to interrupt students' academic progress. At Newport Academy, we collaborate with schools to ensure that teens continue to reach their academic goals during their time with us.

Unlike other treatment centers, Newport Academy focuses on the whole person, not just their mental health concerns. While supporting teens and their families on the path to healing, we ensure that students are set up for success once they leave treatment, with the self-regulation skills, academic abilities, and self-confidence to launch into adulthood and a bright future.

OUR PARTNERSHIPS WITH SCHOOLS

When a teenager is in residential or outpatient programs with Newport Academy, we collaborate with their school to conduct a comprehensive academic assessment, and then create a flexible plan that meets the needs of the student, family, and school, choosing among three options:

- ◇ **Student maintains enrollment in their school:**
Schools provide coursework, Newport Academy provides instruction and support services, and work is returned to the school for grading, creating a seamless academic transition.

- ◇ **Student enrolls in their school's online program:**
When schools offer an alternative program, Newport Academy provides instruction and support services, and the school maintains transcripts.

- ◇ **Student enrolls in Newport Academy's online program:**
We provide instruction and support services, and stay in close communication with schools to ensure that students meet grade criteria and can re-enroll when they return home.

OUR ACADEMIC EXPERTS

- ◇ Credentialed and/or licensed by the state, most with Master's degrees and special education backgrounds
- ◇ Math and science tutors at all campuses, with degrees in these subjects
- ◇ Specializations in learning disabilities and reading, math, and science intervention
- ◇ Extensive training in social emotional learning and adherence to Individualized Education Programs

We work with schools to meet our shared goals of nurturing teens' love of learning, advancing their progress, and giving them the executive functioning and organizational skills to be more engaged, inspired, and successful when they return to the school environment.

Empowering Teens. Restoring Families.®

Newport Academy is a series of evidence-based healing centers for teens and families struggling with mental health issues, eating disorders, and substance abuse. With outpatient, residential, partial hospitalization, and Day School programs across the United States, Newport Academy nurtures the physical, psychological, and educational needs of teens and families from a foundation of compassionate care, clinical expertise, and unconditional love.
