THE MAVERICK FACTOR IS HOMEGROWN

There's just more here. UTA is conveniently located in the middle of Arlington, connecting you to our growing and vibrant downtown area. Head out a little further, and you'll have access to more entertainment than you can wrap your head around: Arlington is home to the Texas Rangers, the Dallas Cowboys, the Dallas Wings, Six Flags, gorgeous parks, plenty of restaurants, and tons of fun events. FIND YOUR PLACE
It's easy to build a life here from the heart of downtown Arlington, on a campus that spans more than 420 acres and includes over 100 buildings.

ACADEMICS WITH IMPACT

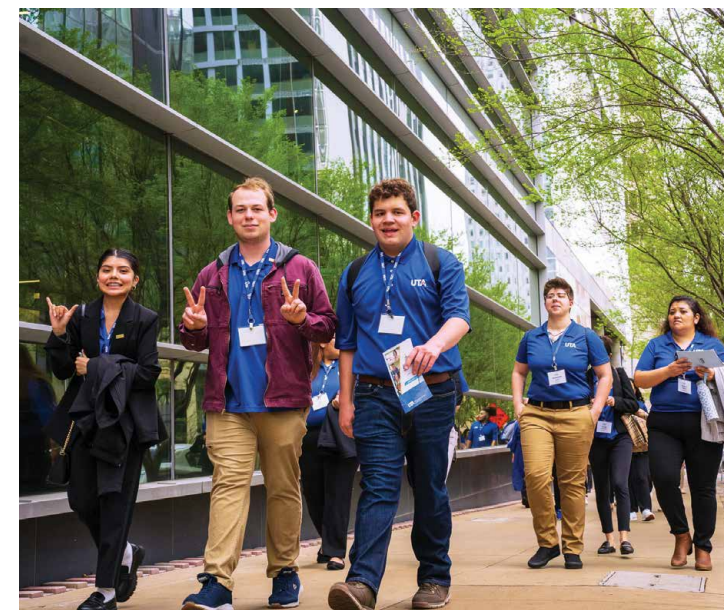

As part of a service-learning project for a landscape architecture course, Angeles Margarida created a public art project inspired by a class trip to Tanzania.

THE COMMUNITY IS YOUR CLASSROOM.

THE MAVERICK FACTOR FUELS NORTH TEXAS

Thanks to our location in the Dallas-Fort Worth Metroplex, you'll get all-access to opportunities that will help you advance in whatever you want to do. Take advantage of internships with corporate giants. Volunteer with community organizations that make a difference. Get hands-on learning in area hospitals. Find an amazing mentor in a local school partnership. This is a place that easily accommodates your every ambition.

THE MAVERICK FACTOR TAKES YOU FURTHER

It all adds up to this. Every graduate of UTA leaves the University with the Maverick Factor, ready to hit the ground running in their fields. Whether your next step is grad school or the workforce, you'll have the edge you need to succeed.

MAKING A DIFFERENCE. Thanks to connections Alyssa Tijerina made through her undergraduate studies, she landed an internship—the first of its kind—at the Texas Center for Proton Therapy. Now, the recent psychology grad is a neuro-rehabilitation researcher at Baylor Scott & White Health.

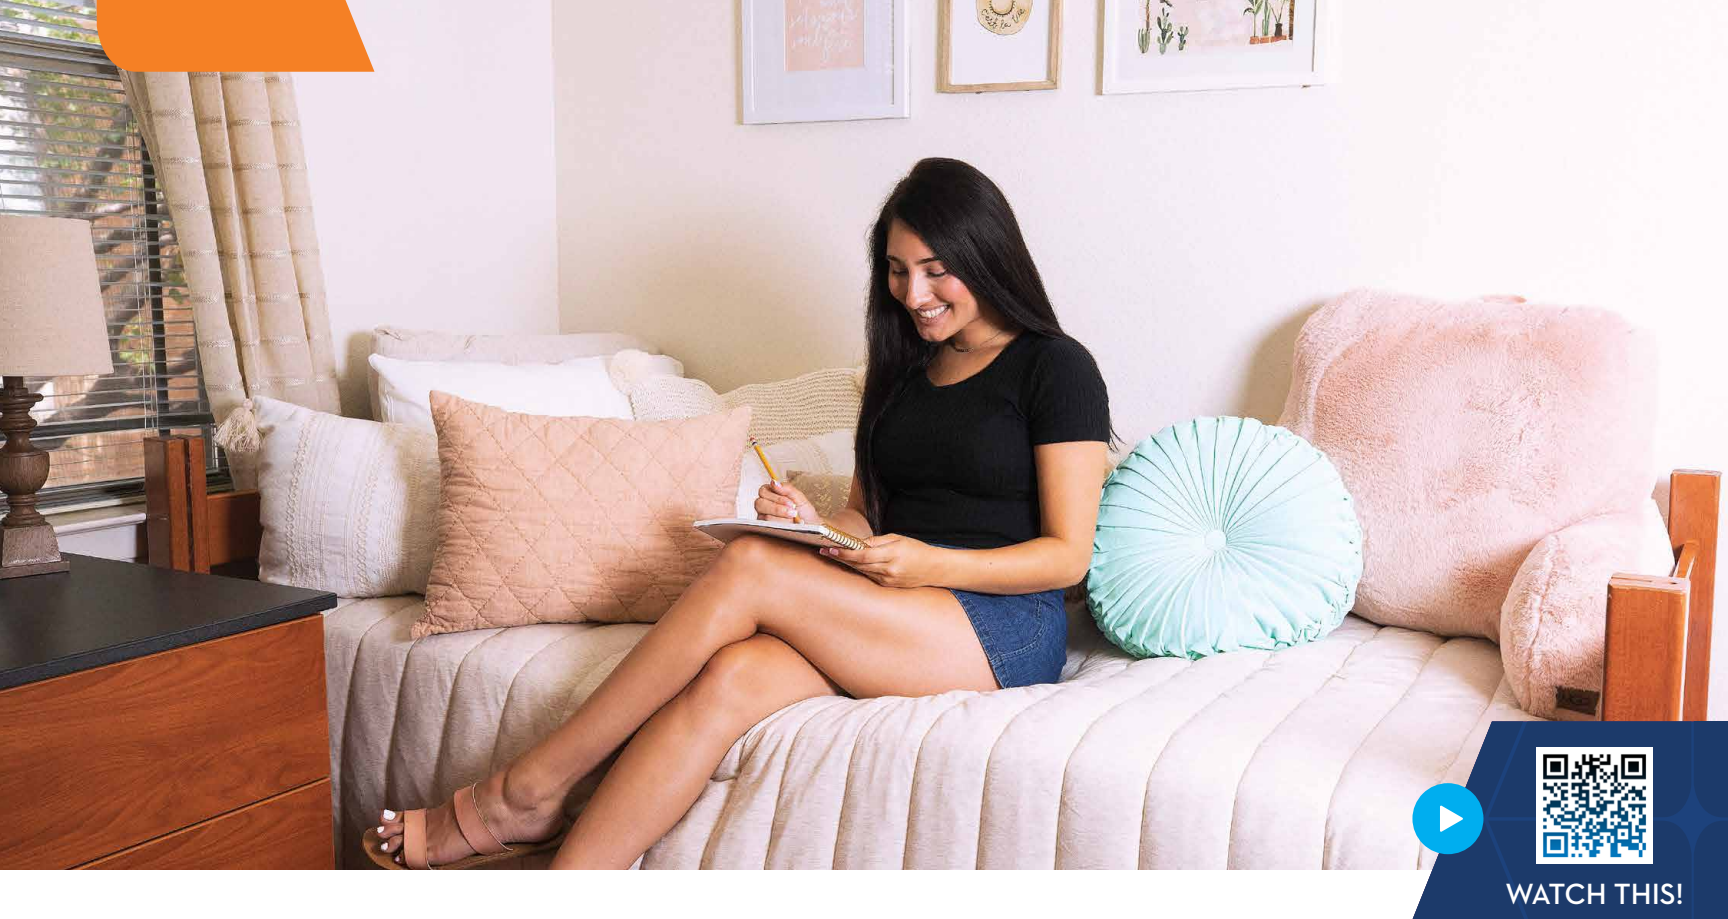

EXPLORING THE UNIVERSE. As an undergraduate computer science student at UTA, Daniel Delago got plenty of hands-on experience in software engineering. These days, he has front row seats to every launch of the Falcon rocket for SpaceX as a flight software engineer.

GRADUATE WITH A CAREER BOOST

Through the Maverick Advantage Program, our students engage in five distinguishing activities before graduation, all designed to encourage the development of marketable skills that will help you stand out from your peers.
