

StudentTracker[®] for High Schools

**Where do your students go
after high school?**

Ask StudentTracker.

StudentTracker enables you to accurately track the postsecondary success of your high school graduates. Its combination of accurate data and robust reporting delivers the full picture on student educational outcomes nationwide.

With the insights that StudentTracker provides, you can bridge the data gap and better prepare your students for higher education success.

What High Schools & Districts Can Learn

StudentTracker can help you more accurately gauge your graduates' college success by answering key questions, such as:

- How many of our high school graduates enroll in college?
- Do they persist and graduate from college?
- How long does it take for them to get their degrees?
- Do they stay in or go out of state for college?
- Do they attend a two- or four-year school?
- Which colleges do they most commonly attend?
- What are the outcomes for our economically disadvantaged students?
- How well do our college & career readiness programs work?
- How can we understand outcomes through a diversity, equity and inclusion (DEI) lens?

What Other Education Program Providers Can Learn

If your organization is not a high school or district, you can still use StudentTracker to accurately assess the educational achievements of your program participants and discover:

- Where did my program's former participants enroll in college?
- How long did their educational efforts persist?
- Did they transfer between colleges?
- Did they receive a degree? If so, which degree?
- Where did they graduate from college?
- What was their college major?

Additional Resources for You

DiplomaVerifySM

DiplomaVerify lets your district or high school automate your diploma verifications. This free service, which is only available to StudentTracker for High Schools participants, uses the same data you already report to us for StudentTracker. Adding DiplomaVerify enables you and your students to get the greatest benefit out of your student data. Visit studentclearinghouse.org/solutions/ed-verifications.

High School Benchmarks Report

The High School Benchmarks Report is a free annual report that breaks down nationwide high school data by school type and demographic details. The resulting data gives school and school district administrations and others a snapshot of national college access, persistence, and completion rates for different student populations. Visit nscresearchcenter.org/high-school-benchmarks.

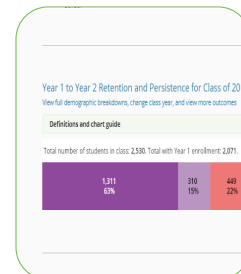

Custom Research

Our custom research projects are designed for those who have research needs that require a tailored approach. You'll work with our Custom Research team to take advantage of the Clearinghouse's decades of deep data resources and analytical capabilities to obtain the actionable insights you need. Visit go.studentclearinghouse.org/custom-research.

StudentTracker 3.0 – Coming Soon!

StudentTracker 3.0 is the learner insights tool you've been waiting for. Upon its release, you'll get the answers you need immediately via its easy-to-use and easy-to-understand dashboards and visualizations. You'll also get 24/7 on-demand reporting and simple account management tools.

The Clearinghouse's Collaboration with NCAN

For information on our National College Attainment Network (NCAN) collaboration to use StudentTracker to improve career and college readiness, visit go.studentclearinghouse.org/ncan.
