

Is Your School in Search of More Skilled Trades Opportunities for Your Students?

The demand for skilled labor is higher than ever, but many employers are finding individuals with proper training are in short supply. The RV Technical Institute can help your school be a solution to this national crisis by implementing our training program into your curriculum – **for free!**

Students receive hands-on training to become Certified RV Technicians and upon completion, the RV Technical Institute helps pair graduates with employers. Certified RV Technician learn Propane Systems, Electrical Systems, Water Systems, Appliances, Generators, Chassis, and RV Bodies, and can live and work anywhere in the United States.

A black and white photograph of a technician in a workshop setting, kneeling and working on the side of an RV. The technician is wearing a cap and work clothes, and is using a tool to work on a component of the vehicle's exterior. The background is dark and out of focus.
