

Empower Indiana School Counselors with Pathways®

Indiana's New Graduation Requirements Are Here—Are You Ready?

Pathways is designed to help Indiana school counselors navigate the complexities of these new graduation requirements with ease. Our platform:

- **Automatically integrates** the new Indiana Diploma and associated Honors Seals
- **Provides real-time tracking** of student progress toward graduation
- **Consolidates all required data points** into a single, easy-to-use interface
- **Eliminates paper-based tracking** and spreadsheets for a streamlined experience
- **Increases collaboration** between families and schools with MyPathways Family Portal

“Before Pathways, we were doing all of that by hand. It was honestly kind of scary, because there was no double-check. All you had was a partner, another human who you had to rely on. Life before Pathways was just scary!

— Lori Stinson, District Coordinator of Counseling Services at Greater Clark County Schools

Stay Ahead of the Transition

Pathways is already updated to accommodate the new Indiana Diploma, giving schools a reliable solution before the class of 2029 enters high school. Don't wait until these changes become overwhelming—let Pathways help you stay ahead.

Why Indiana Schools Trust Pathways

Indiana counselors and administrators are facing uncertainty with the new diploma changes. Pathways is built to adapt alongside state legislation, ensuring you stay compliant and confident in your graduation tracking.
