

Empower educators Support students Reduce burnout

Lenny Learning

Comprehensive PreK-12 Curriculum

MTSS & SPED Lessons

PD & District-wide Analytics

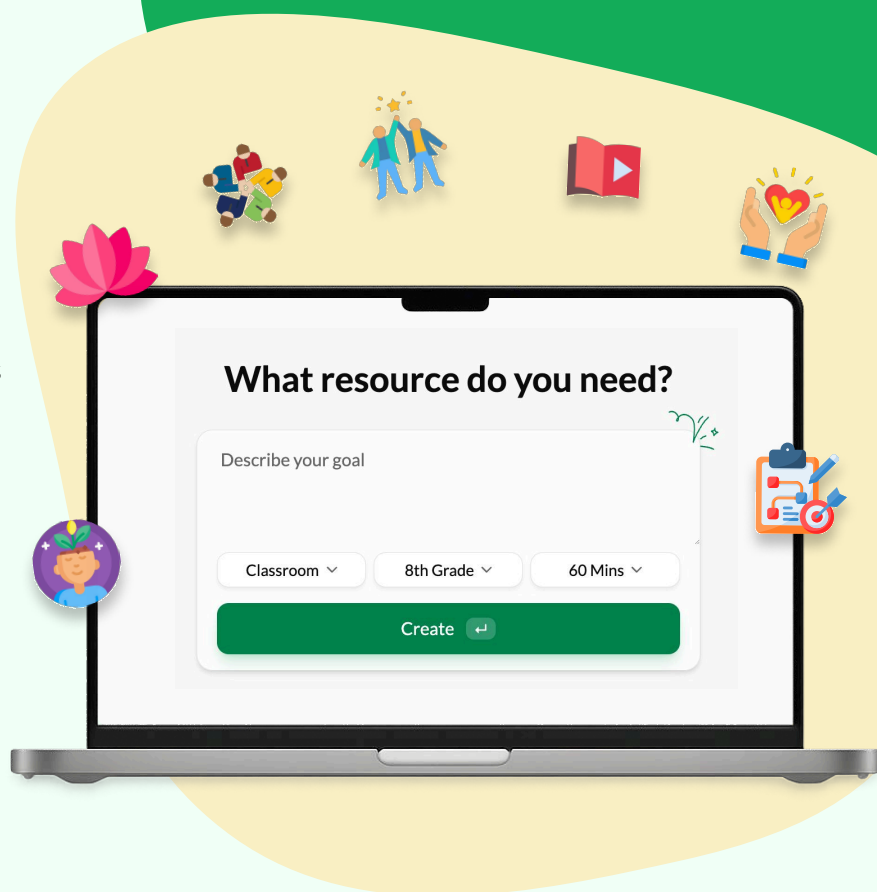

Parent & Community Resources

Scalable support that doesn't add to your team's workload. Lenny equips your staff with aligned, adaptable, easy-to-implement tools to meet behavioral health goals.

"Fewer students are being pulled out for discipline. It's being dealt with inside the classroom. **Lenny Learning empowers instructional staff to do the work.**"

Alicia Wilson, PhD, LCSW-R
NY Regional Director of Social Work
Uncommon Schools

With Lenny, you can:

Build your own curriculum, backed by evidence. Start with Lenny's library or design from scratch. Everything aligns to CASEL and ASCA.

Equip every educator. Access includes onboarding, training, and tools designed for use by the whole team — from counselors, to teachers, and support staff.

Keep a finger on the pulse. See what your team is using, what students are learning, and where support is working, all in real time.

Adapt to your district's needs. Lenny knows there is no one-size fits all approach, that's why it's built to be flexible enough to support SPED, ELL, MTSS, IEP goals, and more.
