01. Pareto Analysis

SCUTA's Pareto Analysis breaks down over 250 classified tasks into seven main categories and lists them in descending order of total time. As a result, users gain informed qualitative analysis and program evaluation.

02. Monthly Time Analysis

The Monthly Use-of-Time Analysis report illustrates how school counseling services fluctuate with the school year, depending on program and student needs.

03. Model Alignment

SCUTA works with the **ASCA National Model®, ISCA International Model, and state school counseling models.** For example, in Texas, users can complete reports that meet state-specific requirements and also generate ASCA-aligned reports with just one click.

Comprehensive School Counseling & Tiered Support

School counselors play a critical role in the success of tiered interventions. SCUTA is a powerful tool that helps educators document, analyze, and advocate using meaningful, actionable data. By using SCUTA, educators can:

- Gain clear insight into how tiered supports are delivered
- Promote the strategic use of evidence-based practices
- Make informed, data-driven decisions
- Enhance collaboration across student support teams and educators

Track Your Time with Clarity

SCUTA's MTSS Report illustrates how your time is allocated across tiers and services. Instantly see alignment with best practices, such as dedicating 80% to student services, and identify where adjustments can enhance impact.
