

The Center for Autism

The Center for Autism provides autism diagnostic services and subsequent case management for individuals with autism spectrum disorder ages 2 years and up.

Many programs stop providing services when a child turns 21. At Sheppard Pratt, we provide care throughout the lifespan – meaning patients never age out of services. Our team has deep experience caring for individuals from the time they are very young, to when they are much older.

Highlights:

- Diagnostic assessments of autism spectrum disorder
- Unparalleled, interdisciplinary team of skilled clinicians
- Subsequent case management services for local patients
- Seamless connection to Sheppard Pratt's services
- Private pay

Sheppard Pratt's autism services include:

- Comprehensive, multi-day diagnostic process
- Medication management
- Therapy
- Applied behavioral analysis (ABA) services
- Occupational therapy
- Speech/language pathology
- IEP/504 planning
- Special education, including Sheppard Pratt's many special education schools throughout the state of Maryland
- Residential care for adults
- Vocational training
- Day programs for adults
- Specialized inpatient care for youth and adults
