

APPRENTICESHIP PROGRAMS

Howard Community College has long been recognized as the primary hub for higher learning in Howard County. We know that life goals can be achieved through education. At HCC, students have the opportunity to get an outstanding college experience while gaining practical skills and building meaningful professional connections at the same time.

HCC IS THE LARGEST COMMUNITY COLLEGE SPONSOR OF REGISTERED APPRENTICES IN MARYLAND.

(MD Department of Labor, 2025)

HCC's apprenticeship program merges a formal learning experience with a hands-on paid work experience. With time allocated each week for both course and work on-the-job experience, students have a well-rounded educational opportunity to **"Earn While They Learn."**

Benefits to Businesses

Through Howard Community College's apprenticeship program, employers are proactive in cultivating current and future workforce needs. Employers who hire HCC apprentices can customize education and training programs for the students they hire, tailored to the jobs they are filling.
