

Healthy Relationships Start with Harmony

Harmony has a renewed focus on developing healthy peer relationships both inside and outside the classroom as we are now powered by National University's Whole Human Education™.

Our Harmony Curriculum is a Pre-K-6th grade program designed to foster communication, belonging, and strong community. With evidence-based Everyday Practices, lessons and activities, Harmony focuses on the Whole Student with the guided support for children to become caring, compassionate adults.

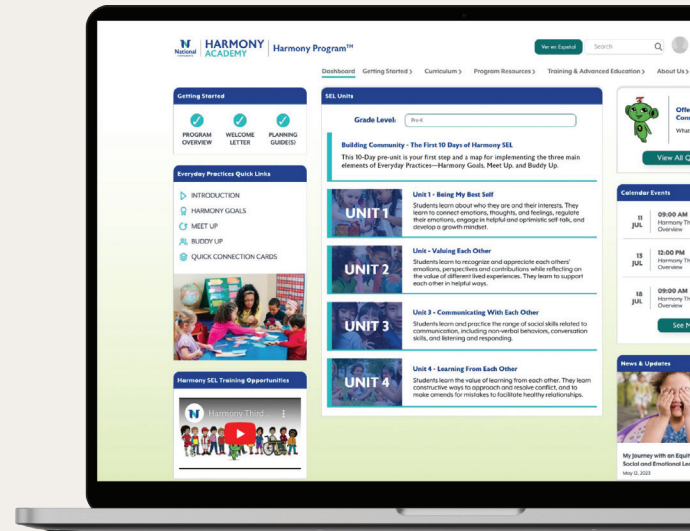

Just like the learning communities we support, Harmony continues to grow and develop. Driven by the latest research in whole child development, we are updating Harmony with additional games and storybooks and an all-new unit structure this year.

- No-cost core digital resources
- 5 themed units for Pre-K-6th grade
- Live online and on-demand implementation training
- Resources for students, educators and families
- Harmony Kits and Harmony Plus available to enhance healthy learning environments
- Elevated professional development now offered to grow expertise and expand teaching knowledge

Begin Your Journey with the Harmony Online Learning Portal

Our [Harmony Online Learning Portal](#) provides full access to all the lessons, teaching tools, and training options you need to implement effective social and emotional learning in your context. Register for our digital resources at no cost as an educator, administrator, out-of-school time practitioner, or family member.

Building Community: The First 10 Days of Harmony

The Building Community Pre-unit is your first step and a map for implementing the three main elements of Everyday Practices—Harmony Goals, Meet Up, and Buddy Up—as well as mini-lessons to create welcoming environments. The Building Community Pre-unit provides strategies to begin every school year by building harmonious relationships and an healthy classroom community.
