

One Tier. One Team. One Child at a Time.

Ignited! Consulting partners with state associations, regions, districts, and schools to design, implement, and sustain Multi-Tiered Systems of Support (MTSS) through systems review, leadership coaching, and professional learning. Our vision is to support school systems to blend implementation science (what we know works to produce results!) with social, emotional, behavioral, and academic practices (what we know students need to get!) in order to move the needle on increased student success.

What We Help Districts Do

- Strengthen district-wide MTSS implementation
- Align PBIS, SEL, and Restorative Practices
- Build leadership capacity to sustain student support systems for administrators, school counselors, and others
- Improve alignment between initiatives and daily practice
- Provide practical professional learning for educators, including leadership teams, admins, and school counselors

Areas of Partnership

Multi-Tiered Systems of Support (MTSS)

- Integrating academic, behavioral, and social emotional supports

School Counselor Leadership in MTSS

- Counselors as system change leaders developing comprehensive programs

Positive Behavior, Relationships & School Culture

- Tier 1, 2, and 3 systems that enhance daily experiences in classrooms

Professional Learning & Leadership Coaching

- Training and coaching that leads to sustainable practices

Implementation Science for School Systems

- Moving initiatives from planning and theory into practice and outcomes

Keynotes and Conference Sessions

- Large scale messaging to move practitioners into action
