

# Track Student Risk

## Coordinate Lifeline Care

Standardize suicide risk and self-injury tracking across campuses.   
Lifeline Connect ties screening, parent contacts, documents, and analytics into one audit-ready record.

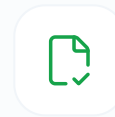

### Case Intake

Add a student, set case type, log details.

### SRSS and C-SSRS

Run SRSS and C-SSRS to set risk levels.

### Follow-Up Proof

Log contacts, upload files, print case record.

### Consistent Risk Levels

Keep SRSS and C-SSRS results tied to the case, with clear risk options that support consistent decisions.

### Parent Notifications Log

Record notification date, method, and details so teams can prove when guardians were contacted.

### Documents Evidence Binder

Upload screeners, releases, letters, and records by type so attachments stay organized with the case.

### District Visibility

Dashboards group cases by campus, status, risk, grade, and demographics at a glance.
