Capacity Building

Attendance, Behavior & Capacity Building

Student Well-Being in 10 Minutes.

Gamified wellness check-ins and games that help students build emotional and learning readiness.

Identify Needs. Know What to Do Next.

Our algorithm transforms everyday behaviors into personalized support before challenges escalate.

More Teaching. Fewer Behavioral Interruptions.

Equip educators with ready-to-use interventions, personalized games, and actionable support strategies.

Two Worlds. One Journey Toward Well-Being.

A shared universe with age-appropriate experience, designed to turn everyday moments into practice for lifelong mental and behavioral well-being!

Emotion Lab

Students hatch and train Emotion Buddies while learning to recognize body signals, name emotions, and choose strategies.

Self-Regulation Skills

- Check in with emotion, energy, social connection, and physical state.
- Practice personalized coping strategies for different brain modes.
- Build emotional vocabulary, awareness, coping, & help-seeking skills.

Shadow Valley

Students team up with friends in an open world, navigate social struggle scenarios, and outsmart villains that represent stress.

Social Problem Solving

- Team up to navigate real-world social scenarios.
- Outsmart social struggle villains through strength-based games.
- Strengthen perspective taking, conflict resolution, and social thinking skills.

How Connect™ Builds Skills Across Development

From understanding emotions to navigating social challenges, Connect supports students at every developmental stage.
